## MULTIPLY YOUR CUSTOMER CHOICES

Designed with two whole coffee bean hoppers and two grinders, it provides the capacity to adjust the grind point to each selected bean - obtaining the best flavour and coffee notes in every brew, one after the other.

The machine can be equipped with the traditional espresso brewer AZK V10 or with the variable chamber brewer AZK V30, that extracts the maximum taste and aroma with a perfect creaminess from any blend of roasted coffee.

The adjustable espresso dispensing system offers the option of dispensing various sizes of coffee cups in the same machine, being certain of serving the optimum amount of coffee in each service. In addition, this option allows the consumer to adjust the strength of the coffee to suit their taste.

### User friendly touchless selection

With up to 20 speciality coffee options available, you can make your selection using Touch or our new patented Distance Selection technology - choose your favourite.

### Durable and easy to clean

The stainless steel dispensing area is sturdy and easy to clean. The front of the tray is removable, allowing easy daily maintenance.

### Different cup sizes

Cups up to 14 cm tall can be used. A retractable cup stand is included that allows the use of small cups. A cup sensor is fitted as standard.

## PAY BY CASH, CARD, CASHLESS OR MOBILE PHONE

We are in a global continuous adapting world and payment trends are changing. The MDB protocol allows the Vitro X5 to adapt to the latest payment methods with various accessories that make payment easy.

For a self-contained operation, the Vitro X5 allows to integrate a cashless system, an exchange giver or an MDB coin validator. These payment systems can also be installed in an exterior payment module.

The machine is compatible with Pay4Vend App, allowing payment directly from a mobile phone.
