Efficiency and Expertise Combined

Dual Grinders

Equipped with two PGH64 grinders, able to use two kinds of beans in separate hoppers, more flavors and enhanced efficiency.

Premium Brewing

Features a P20 brewer with a 20g chamber for optimal flavor extraction, making every cup exceptional.

Easy Cleaning

Features a design that simplifies maintenance, with detachable components and auto-cleaning options, ensuring hassle-free upkeep.

10+ drinks

10.1 inch panel

1x2L Powder Canisters

1x1.5L Powder Canisters

*Patent no:201820398027.4

1x Mixer

Mainline Tap Water
(optional 4L Water Tank)

A Variety of Drinks

The JL33 series offers a rich variety of beverages, blending fresh ground coffee, creamy milk, and smooth foam with select instant ingredients for diverse tastes. Models JL33A and JL33C further expand drink options with dual instant canisters, making every cup a tailored taste adventure.

Dual Boilers and Dual Pumps

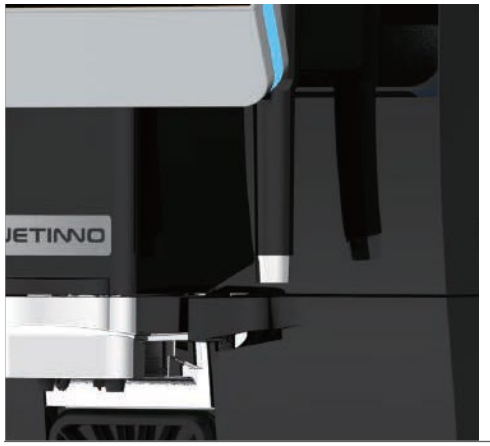

The JL33 series boasts dual boilers and pumps, ensuring swift and simultaneous coffee brewing and milk steaming. This setup maintains a stable temperature for optimal flavor extraction while enhancing efficiency—ideal for those seeking cafe-quality drinks in business or commercial settings.

More Details of Outstanding Designs

Built-in water tank

The 4L water tank is built inside the machine.

Separate Water Outlet

Take hot water easily at just a button.

One Click Two Cups

Doppio enjoyment of espresso and milk drinks.

Low-Cup Tray

Considerate for both big and small size cups.

Multiple Options of Cleaning

Start-up Cleaning

The machine will automatically make full machine cleaning every time it is powered on.

Timed Cleaning

schedule a time and the machine will conduct an auto full-machine cleaning.

Milk System Cleaning

schedule a time and the milk system is able to have auto cleaning, removing the milk dregs and residue.

Partial Cleaning

choose to separately clean key modules.

Deep Cleaning

use exclusive cleaners to deeply clean coffee and milk residue.

Manual Cleaning

Manually remove the module or parts and deeply clean by hand.

Powerful IoT Solution

Jetinno SaaS
Management Platform

Remote Control

Support remote control of recipes adjustment, machine setting, UI ads and video upload, machine system upgrade.

Malfunction Alert

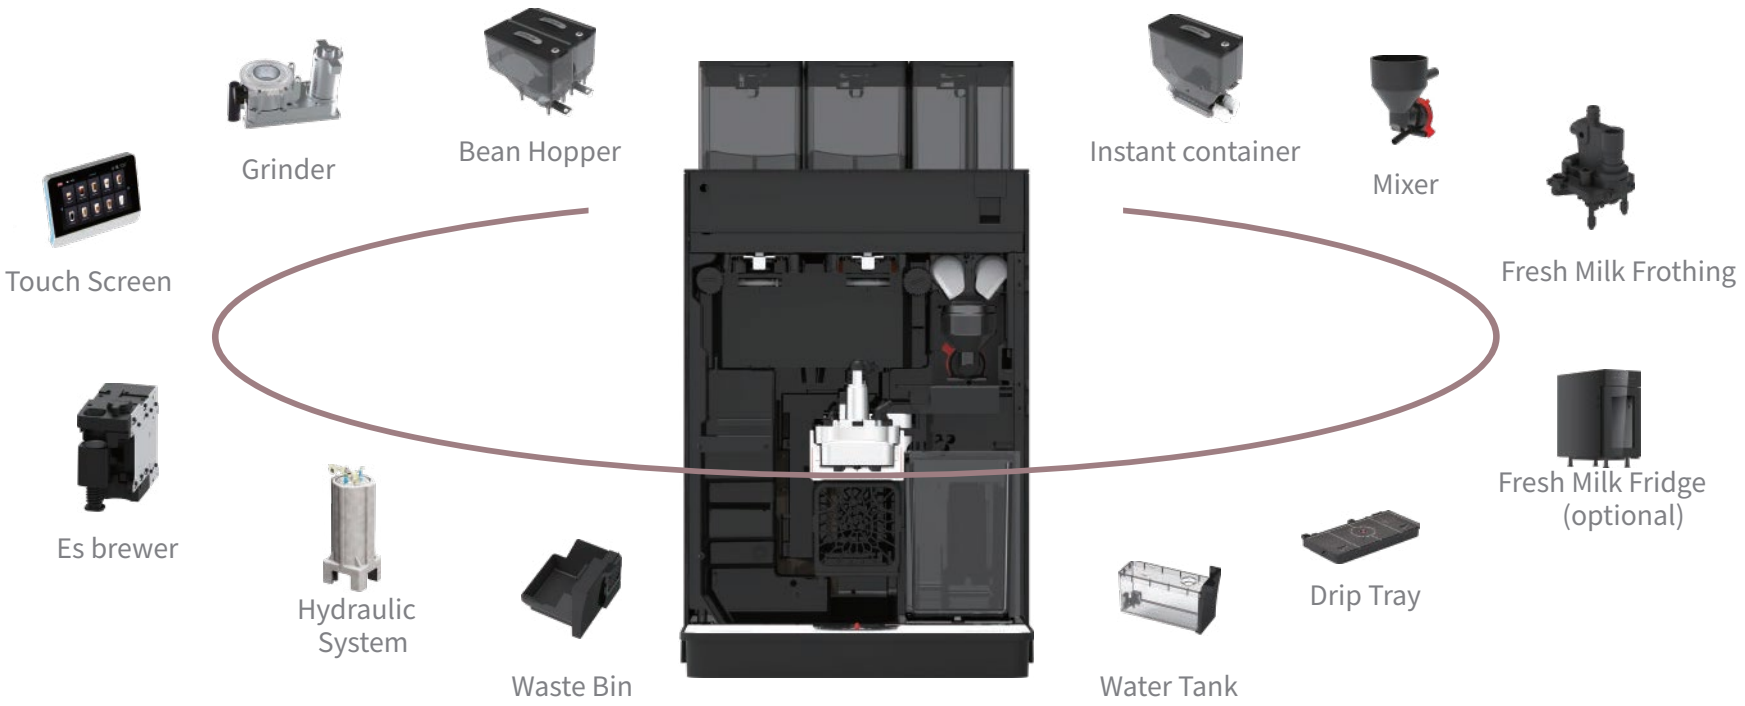

Real time machine malfunction alert, can push notice to machine operator.

Comprehensive Data

Location deployment data, drink sale data, payment data, all these data statistics help operator better in machine operation and coffee vending business.

Modular Design

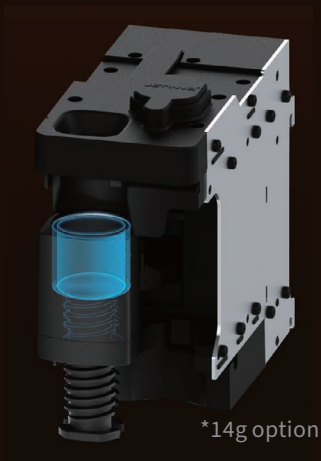

The combination of modules has been fully considered in the design stage, and the beverage production modules such as coffee extraction module and instant module are flexibly combined into one machine to facilitate customers to put into different scenarios to meet user beverage needs.

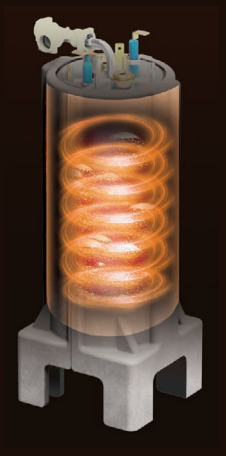

Jetinno grinder

- Patented tech innovated by Jetinno.
- European well-known grinding blade brand.
- 64mm Flat burr grinder, special made steel, high impact tolerance.
- Grinder lifetime: 62500 times (can grind approx 500kg coffee bean).
- Adjustable coffee ground fineness, easy to use.

Professional coffee brewing system

- Removable brewer module design, easy for cleaning.
- 9bar 92°C Espresso extraction, compatible with low-pressure brewing.
- European time-honored brand applies the same type.
- Pre-infusion function to have saturated extraction.
- Built with 14g and 20g two brewing chambers, for different recipes.
- Detachable brewing chamber design, easy for deep-cleaning.
- Auto decompression function to discharge residual coffee liquid.

Jetinno Patented Hydraulic System

- 2700W heating power, continuous and stable water temperature guaranteed.
- Sweden Backerths 700ml stainless high-pressure boiler, max 25bar tolerance.
- USA EMERSON professional STB temperature control protective switch.
- Japan OMRON temperature/ pressure sensor, real-time monitoring.
- Italy ULKA high -pressure electromagnetic pump, provides 9Bar extraction pressure.
- Other valve joints spare parts, flow meter are all Italy and German made.

High speed stirring system

- Patented tech innovated by Jetinno.
- Detachable stirring chamber, easy for cleaning and maintenance.
- Up to 20000rpm stirring speed, rapid sufficient dissolution.
- Adjustable stirring speed for different recipes.(milk foam requires high speed, instant coffee and tea drinks require low speed).

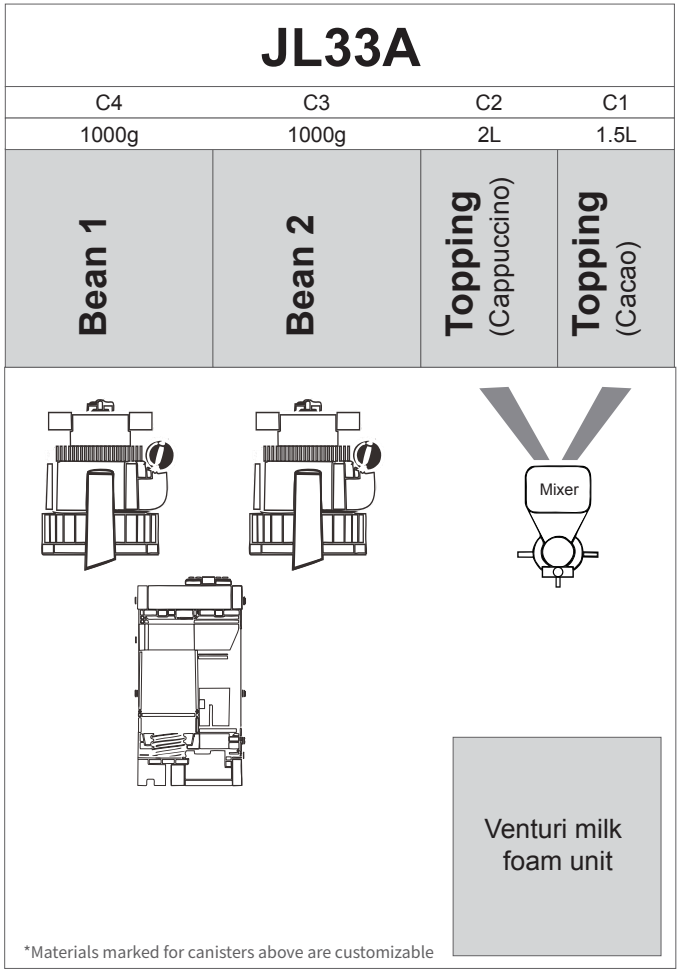

Hot Milk Frothing System

- Produces hot milk/ foamed milk with a temperature of 60°C or above.
- Independently adjusts the froth volume in the beverage.
- Timed automatic cleaning of the milk path.
- Snap-on design allows for quick disassembly.
